

OCEAN FLOWER WINS 4 PRESTIGIOUS ASIA PACIFIC PROPERTY AWARDS

With Waterstudio's design of The ocean flower, Dutch Docklands won four prestigious International Property Awards in the 2014 Asia Pacific regional competition: "Architecture Multiple Residence", "Property Single Unit" and "Best in Asia Pacific"!

The Ocean Flower competed against a high number of developers, architects and agents to receive the following awards:

- o Best Residential Development Maldives
- o Best Property Single Unit Maldives & Asia Pacific
- o Best Architecture Multiple Residence Maldives & Asia Pacific
- o Best Real Estate Agency Maldives

Stuart Shield, President of the International Property Awards, says, "It never ceases to amaze me how competing companies from the Asia Pacific region continue to raise the bar even higher every year. The commitment to excellence they demonstrate in every aspect of their profession represents the very essence of these awards. Our extensive panel of judges has found the winning formula of innovation, sustainability, eco-awareness and overall 'wow factor' in The Ocean Flower Maldives, which demonstrated all our criteria perfectly. This unique development, that takes its name from a Maldivian flower, has villas that are both spacious and spectacular in a magnificent waterside setting."
