

Amillarah

Your own floating private island

PRIVATE ISLANDS

Make your own paradise

A private island to call your very own may sound like the stuff of dreams or fantasy, but with Amillarah it is a very real possibility. Not only can you customize the size, shape and style of your luxurious floating residence, but you can also choose where you want it to be located. Miami? Maldives? Dubai? New York? Wherever takes your fancy, the choice is all yours.

AMILLARAH

The story of our brand

The word "Amillarah" originates from the Maldivian language and means "private island". Our unique logo represents the four elements of a paradise island: the villa, the private beach, the berthing dock, and the boat. These elements come together to form a perfect circle while also resembling a Dutch tulip.

ANY SHAPE. ANY PLACE.

Amillarah provides the possibility to create paradise wherever you want.

A PIECE OF ART YOU CAN LIVE IN

Unique tailor-made islands blending nature with architecture.

GREEN IMPACT

Eco-friendly standards

Amillarah Private Islands™ are self-sustaining islands that are built on the latest Dutch art green technology, keeping their environmental impact at a minimum. Completely above the water, the base of the island is built on a platform for 100 years, while creating a new under-water habitat for sea life.

DUTCH EXPERTISE

Knowledge and "Know H2Ow"

For hundreds of years the Dutch have been world leaders in water-defence technology, which is why Amillarah's developers Dutch Docklands are expertly placed to establish these luxurious floating islands. Working globally in partnership with Christie's International Real Estate and world-renowned oceanographer Jean-Michel Cousteau's Ocean Futures Society charity, Dutch Docklands prides itself on developing with "Know H2Ow".

THE DESIGNER

A maverick approach

Building on a long history of Dutch on-water properties, respected architect Koen Othman leads the industry with his designs for bespoke floating islands that are completely self-sustainable, safe from rising sea levels, and free from negative environmental impact. It is no surprise that Koen has been named as one of the world's most influential people in a Time magazine poll.

CHRISTIE'S INTERNATIONAL REAL ESTATE

MALDIVES

AMILLARAH PRIVATE ISLANDS

NEAR MALE, NORTH MALE ATOLL

- Unique tailor-made floating private islands
- Fully serviced by a five-star hotel operator

For the very first time, it is possible to buy a private island in the Maldives, with its clear turquoise sea, ultra-white sands, and glorious sunshine. Each of the floating private islands can be customized as required, and all have a water plot of more than 25 acres, a private boat mooring, and are set next to a spectacular reef. Situated in what is one of the most beautiful

lagoons in the region, this unique development of just 10 highly exclusive and self-sustaining islands is a joint venture with the government of the Maldives. The stunning lagoon is only a 25-minute boat transfer away from the international airport, and all the properties will be designed with the maximum of privacy and luxury in mind. Each promises to be the ultimate hideaway from which to get away from it all, or as the base for holidays with friends and family. Activities range from swimming, diving, and snorkelling, to simply soaking up the sun, listening to the gentle waves, and enjoying a cocktail before dinner.
